BURNING WOOD TO REDUCE COAL BILLS

While present high prices for fuel prevail, owners of wood lots can make good wages for themselves these winter days by cutting and marketing fire wood that otherwise would be wasted, and at the same time improvement can be made in the timber stands.

Not only should all waste wood be used, but "weed trees" that have no other value except for firewood should be cut out and marketed. Their removal increases the income from the wood lot and improves its condition by allowing valuable young trees greater freedom to develop.

"POWER OF PERSONALITY"

The above caption is the title of a very excellent paper written and read by Paul Young of Granger, at the annual conference of Y. M. C. A. boys contains many choice thoughts which the writer has presented in a cogent and able manner. The paper follows:

Power of Personality—Influence as to good or evil: First let us get a clear meaning of Personality. It is individuality existing in itself, with a nature as a ground, or the conduct of some individual. Now the word "imitation" plays a large part in personality. If your habits are good and you are kind and generous, some one is apt to follow your good examples which you display before your fellowmen. So in order to produce a good influence over the people you must do and act accordingly, as did Jesus to his people. "As thou hast believed, so shall it be done unto you." But there are evil doings as well as good in this world. So let all those who are good, help those who have fallen to the lower ambitions of life. This is principally what the Y. M. C. A. is for. To help the other fellow! In order to do this we must possess a strong personality and influence to persuade others to lead the life that they should lead.

Education: In order to have a good personality education of course, is necessary. This is one of the main factors. Some people may think that education hasn't anything to do with personality, but I think it has. We can go back to the beginning and find that personality is the conduct of some individual and I don't see why education doesn't partly govern the conduct of that individual. The education at home, given by the parents is (of good) the key to higher life and to strength, to influence other people along the right track of Christianity. If the influence which he receives at home is evil, he is bound to influence others the wrong way, unless some good, strong character person gets

HOW WILL YOU RAISE YOUR CHICKS

All the big and little breeders all over the country use the Standard Colony Brooder. Will you?

The "Standard" is the most practical and successful coal-burning brooder ever made. Broods 100 chicks or 1000 at a guaranteed cost of less than 6 cents a day. We know the

STANDARD COLONY BROODER (PATENTED)

Will make three chicks grow where one grew before. We know it will cut your cost of equipment and operation to less than half, and won't demand one-fourth the time and labor. Besides the "Standard" is guaranteed to raise more and better chicks. Can't break or wear out.

You know what a brooder should be and do. Sit down and write it all out; we will sign it and then, if the Standard Colony Brooder fails to meet your every requirement, we'll hand your money back. Come in and get a "Book of Proof"—free and we'll show you the brooder.

E. F. WYMAN, Agent, Brunswick, O.

PAUL YOUNG.
